

Read and solve.

1.

Which equation best represents the data shown on the scatterplot?

F $y = \frac{x}{2} - 1$

G $y = \frac{1}{2}x - 3$

H $y = x - 3$

J $y = 2x - 5$

2.

Using the median fit method, which scatterplot most likely has a line of best fit represented by $y = -x + 5$?
