

US1.2c

The United States has access to numerous and varied bodies of water.
Bodies of water support interaction among regions, form borders, and create links to other areas.

The student will use maps, globes, photographs, pictures, and tables to
c) locate and identify the water features important to the early history of the United States: Great Lakes, Mississippi River, Missouri River, Ohio River, Columbia River, Colorado River, Rio Grand, Atlantic Ocean, and Gulf of Mexico
