

- Continents and Oceans | SOL USI. 2a

List the seven continents:

- South America
- North America
- Europe *
- Africa
- Australia
- Antarctica
- Asia

List the five oceans:

- Atlantic
- Pacific
- Arctic
- Indian
- Southern

*Europe is considered a continent even though it is not entirely surrounded by water. The land mass is frequently called Eurasia.

Essential Understanding: Continents are large land masses surrounded by water.
