

Read and solve.

1.

Which equation best represents the data shown on the scatterplot?

F  $y = \frac{x}{2} - 1$

G  $y = \frac{1}{2}x - 3$

H  $y = x - 3$

J  $y = 2x - 5$

2.

Using the median fit method, which scatterplot most likely has a line of best fit represented by  $y = -x + 5$ ?
